PROJECTS

- Portfolio <https://savyagupta.netlify.app> may-2024
I made a responsive portfolio website, in this website all my projects and skills are displayed. I made this website purely by using react and tailwind css.
- Utsav <https://utsav-delta.vercel.app> may-2025
I have developed a project which is a movie streaming website built using Next.js and React.js. It provides a modern and responsive interface for browsing and discovering movies.
- Flexhub <https://savyagupta-2004.github.io/FlexHub-react/> jan-2024
I developed a comprehensive cricket web application using React, featuring a range of functionalities for an engaging user experience.
- PassOP <https://oppassword.netlify.app> feb-2024
I have designed and implemented a sophisticated password manager application using Vite and React, enhanced with Tailwind CSS for styling. This application provides users with a secure and efficient way to manage their passwords locally.
